Art Unit: 1618

Claims 5, 7, 9, 11 and 13-20 are presented for examination.

The remarks filed on June 28, 2006 have been received and entered.

Claims 5, 7, 9, 11 and 13-20 are rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on pages 2-3 of the office action of February 28, 2006.

Claims 5, 7, 9, 11 and 13-20 are rejected under 35 U.S.C. 103 (a) for the reasons set forth on pages 3 and 4 of the office action of May 5, 2005.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks refers to the following phrase of the prior art "The anti convulsant activity of [L-arginin] may be the direct..., or a product of its metabolism such as agmatine". Applicant argues that such phrase does not suggest the use of agmatine as an anti-convulsant agent. Applicant is reminded that such phrase exactly suggests that agmatine which is the metabolite of arginine might be responsible for its anticonvulsant activity. Thus, it would have been obvious to a person skilled in the art to use agmatine for the treatment of seizure. Applicant's arguments regarding the use of agmatine for the treatment of seizure associated with epilepsy have been noted. There is no evidence of record showing that the seizure associated with different conditions can be treated differently. Applicant's remarks regarding the 112 first paragraph have been carefully reviewed, but are not deemed to be persuasive. Applicant refers to one example in the specification, which was done in rats to support the use of agmatine for the prevention of seizure. Applicant is reminded that one example is not a representative to support the use of preventing. Furthermore, no correlation has been established between the prevention of seizure in rats and humans.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
